

DIRECT SERVICE TO HAWAII

A MORE EFFICIENT HAWAII SUPPLY CHAIN.

Fewer Taxes and Lower Costs

If you ship and store on Honolulu, before delivering to Kauai, Maui, Hawai'i or others, you'll be paying for an extra leg of transportation. Ultimately, your products are subject to three charges instead of one. The savings you'll have from lower taxes and rates can **reduce your costs by 25 percent.**

Less Handling and More Security

Direct service eliminates the handling performed in Honolulu and delivers freight straight to the neighbor island ports. By removing the extra touchpoints of drayage and warehousing, direct service makes Hawaii supply chains **more efficient than those routed through Honolulu.**

Supply Chain Simplified

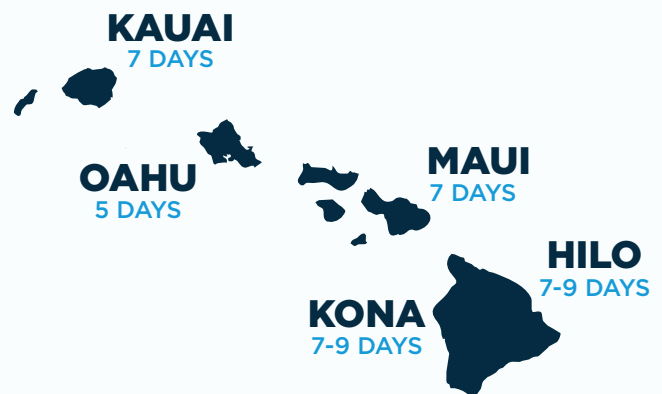

Less handling from direct service also means fewer drivers needed. Instead of paying for drayage from your warehouse to the port, **you'll only pay for the delivery on the neighbor island.**

6 STRATEGIC LOCATIONS

We offer full-service logistics solutions at all of our terminals:

- LOS ANGELES
- HONOLULU
- LIHUE
- KAHULUI
