## A single source 3PL, with custom solutions

### Our Experts

Make the difference

Approved Freight has grown from a small family owned & operated freight forwarder, to a top 100 3PL Provider. We focus on working collaboratively with each of our clients to ensure all shipments arrive when needed. Our dedicated team of experts strive to bring value to shippers. Each day the Approved Team aims to solve logistics problems and build true partnerships with our customers.

### Simple Pricing

Boosts your business

Our goal is to help our clients grow. We stimulate growth through simple pricing structures. Each of our clients receives carefully customized rates, which are easy to understand. With pricing tailored to the reality of your business, you get easy to predict costs, and your bottom line will increase with the opportunity for better planning. Your growth is vital to our success

### CITY OF EXCELLENCE

Our main terminal in City of Industry, CA is the central hub for Approved operations. We manage our business every day to give our clients the best possible service.

### Account Management

Each client is assigned a specific account manager, who will be there for every step of the shipping process.

### Tracking & Tracing

Through our easy to use online portal, you can view the status of your shipments, and you'll always know where your freight is in its journey.

### Warehousing & Storage

With over 300,000 square feet of space, our warehouses will always have room - allowing you to store, consolidate, and ship only when you need to ship. Saving you money by moving at the right time.

## WHAT WE DO

FREIGHT

LOGISTICS

SPECIALTY

## The Right Service, to Move You Forward

With our full offering of logistics services we can help take your freight door-to-door. Our assets in Southern California, Hawaii, Guam, and Alaska create a strong network for end-to-end control, giving you peace of mind that your freight is in the right hands.

By choosing a single source provider like Approved, you'll maximize your return, by eliminating unnecessary touch points. We can help you expand your business with more efficient supply chain solutions.
