

APPROVED

A DEWITT COMPANY®

OCEAN FREIGHT WITH APPROVED

A single source provider for
Hawaii, Guam, and Beyond.

Our Assets

On all major Hawaiian islands & Guam

We have an extensive network of equipment, facilities, & experts on the Mainland US, Hawaii, & Guam. By using technology we work closely between locations, giving clients full visibility throughout the shipping process. Consistent communication is the center of a great partnership.

We're Direct

To Where Your Freight Needs to Go

Approved offers direct service to Guam, and the neighbor islands for all shipments to Hawaii. By bypassing Oahu you can maintain your inventories, projects and facilities more efficiently.

Unique Solutions

For Your One-of-a-Kind Supply Chain

Every supply chain is unique. Working collaboratively with clients is vital to our success. We assess your shipping needs and build the *perfect set of solutions*

Consolidations & Full Containers

DESIGNED FOR YOU | Our equipment, teams of experts, and consistent volume give you options when shipping to Hawaii & Guam. We work collaboratively to craft unique solutions to fit your shipping needs.

CONSOLIDATIONS (LCL) | We schedule the pick-up of your goods and perform consolidations at our main hub in City of Industry, CA (COI). Once the goods arrive in COI, we will load each shipment on 40' or 45' containers. We take care of drayage to the port of Long Beach, CA, and will transport it to its final destination on island. No more scheduling multiple stops - we'll do it all. Using a single source provider like Approved will reduce your workload and help lower costs.

FULL-CONTAINER-LOADS (FCL) | Have more than a few pallets? Approved can also handle your full loads to Hawaii and Guam. Just like our LCL service, we'll schedule transportation from door to door. Whether the final destination is your warehouse, storefront, or your customer's job site, we will get your goods where they need to be. We even handle direct loads to the Neighbor Islands, cutting down on transit time and touch points, ensuring safe and secure shipping.

By maximizing space, we can offer affordable prices and quick service - ship only when you need it most.
